

Menu of Professional Development Trainings

Autism Navigator offers a menu of Professional Development (PD) training opportunities, all using virtual technology.

Are you ready to join us and be a catalyst for meaningful change?

Providers often find deeper fulfillment when they can empower families to engage their child. As early interventionists, we know the magic happens in everyday moments. Our PD training is designed to help you coach families in activities they are already doing everyday – building their confidence to support their child's

social communication development, which sets into motion learning to talk, and lifelong learning. Join our supportive community of learners who care as much as you do. Let's make a lasting impact – one meaningful activity at a time.

You can schedule a free 30-minute Planning Meeting with our team to help you learn more about our group PD training opportunities for your agency or region and where to start. Email us at sales@autismnavigator.com to schedule a Planning Meeting.

Autism Navigator PD Online Courses

Cost: \$500

Autism Navigator online courses offer interactive slides with an unparalleled library of video clips. Our professional course collection covers topics from early detection of autism to evidence-based intervention strategies and supports for social communication, active engagement, and addressing challenging behavior. We have a series of courses for early intervention providers that teach you how to coach families to support their child's learning in everyday activities at home. We have a course to increase the capacity of educators in PreK to 2nd grade classrooms to use evidence-based strategies. And we have a course for healthcare providers in primary care to learn the early features of autism, how to screen and diagnose, and the basics of early intervention. [Learn more](#) about our collection of professional courses and how to purchase an annual license for individual seats.

Group Rates for Online Courses

Group rates are available for our online courses for 50 seats or more with the purchase of one course or a selection of courses. The individual rate for one seat in our Autism Navigator courses is \$500 for a 1-year subscription and \$200 for an annual renewal. We offer multiple levels of discounts for group pricing beginning at a 10% discount for a bulk purchase of 50 seats down to a 50% discount for a bulk purchase of 400 or more courses, with incremental discounts in between. [Learn more](#) about our group rates for courses by filling out this form or email us at sales@autismnavigator.com.

Customized Group Masterclasses

Cost: \$1,500/hour

We offer **FREE** masterclasses that are companions to our courses and provide a unique opportunity to watch video clips together and sharpen your observation skills. [Learn more](#) about what our masterclasses cover, who should attend, when they are scheduled, and how to register. We also offer **customized Group Masterclasses** with content that builds on our free masterclasses and is tailored to your PD needs. Our masterclasses are led by 2 to 3 members of our Autism Navigator team and can cover topics related to our courses and free masterclasses, scheduled at times that are convenient for your team. **Email us at sales@autismnavigator.com to schedule a meeting with our team to learn more about our customized Group Masterclasses.**

PD Tiers for Early Intervention Providers

Autism Navigator uses an implementation science framework to promote coordinated change at practice, program, organization, and system levels to support community uptake and sustained utilization. We have developed **five tiers of PD certification for early intervention providers** designed to support training for effective implementation of parent coaching using Autism Navigator courses, masterclasses, and guided supervision by Master Coaches. Our PD Tiers begin with **Tier 1** for providers to learn the Knowledge and Skills of effective implementation. In **Tier 2** providers advance to the Mastery Application level to become a reliable rater of implementation fidelity and engage families and community partners in parent-implemented intervention. In **Tier 3** providers receive specialized Autism Navigator training to be certified at the implementation fidelity level with four families. **Tier 4** is training to be certified to coach and mentor other providers in your region and **Tier 5** is training to be certified as a Master Coach and Global Training. [Learn more](#) about our PD Tiers for Early Intervention Providers. Email us at sales@autismnavigator.com to schedule a meeting with our team to learn more about our PD Tiers and the costs at each Tier.

We're here to help. Reach out to us at support@autismnavigator.com if you have any questions or suggestions to make our resources better.
